

Waste disposal in the county of Karlsruhe

What disposal options are available?

In the county of Karlsruhe, waste is sorted into **recyclable materials**, **organic waste** and **residual waste**. For organic waste, you have the choice between an organic waste bin and a delivery system. Consistent separation reduces the volume of residual waste and organic waste that is subject to charges – which enables you to reduce your waste charges.

There are special disposal options for large quantities of recyclables, **recyclables** that do not belong in the recycling bin, and other waste such as old **electrical equipment, hazardous waste** and **green waste**.

We offer **bulky waste collection** for metal and electrical appliances, residual bulky waste and wood from indoor areas.

More information at: www.awb-landkreis-karlsruhe.de

RECYCLABLES

Metal, paper and cardboard, plastic, all types of packaging, beverage cartons, wood

ORGANIC WASTE

Fruit and vegetable peelings, food leftovers, egg shells, milk products, coffee filters, tea-bags, bones, plant and garden waste
